

Extra Care Protection

Powertrain Coverage

Engine

Engine block and all internal components, cylinder heads, oil pan, engine mounts, intake manifold, exhaust manifold, harmonic balancer, flywheel, starter, air cleaner, timing belt and cover, accelerator rod and cable, vacuum pump, expansion plugs, engine dipstick and tube, valve covers, camshaft cover, timing belt tensioner, water pump, fuel pump, fan and/or motor, fluid coupling, radiator, thermostat, oil cooler and steel lines, injection pump, timing gear and chain, engine control computer, oil pump.

Manual or Automatic Transmission/Transaxle

Case and all internal parts, transmission mounts, transmission cooler and steel lines, oil pan, clutch cover, clutch master cylinder, clutch release cylinder, torque converter, dipstick and tube, kickdown linkage.

Front/Rear Wheel Drive

Final drive housing and all internal parts, drive shafts, front hub, bearings, differential carrier assembly, axle carrier, axle case, axle bearing, rear axle hub bearings, universal joints, propeller shafts, axle housing and all internal parts, drive shaft centre supports, constant velocity joints and boots, axle shafts, front axle hub bearings.

Four Wheel Drive

Transfer case and all internal components, front/centre/rear differential assemblies and all internal components, front hub and spindle assembly (including locking device).

Seals/Gaskets/Fluids/Filters

All seals and gaskets used to contain fluid/lubricants within covered components, replacement of coolant, refrigerant, lubricants and filters when required as a result of a failure of a covered component.

Comprehensive Coverage

New Hybrid Components (For Hybrid Vehicles Only)

Lexus hybrid owners can now enjoy added peace of mind with Extra Care Protection. Any New Vehicle ECP purchased on or after May 1, 2010 now extends the original warranty coverage on the following hybrid components - the HV battery, battery control module, hybrid control module, and the inverter/converter.

Safety Restraints

Front and rear seatbelts, airbags.

Front/Rear Suspension

Suspension arms, stabilizer bars, stabilizer links, ball joints, stabilizer bushings, wheel bearings, shock absorbers, shafts, steering knuckles.

Steering

Steering column, shaft, power steering pump, power steering pulley, rack ends, steering wheel, linkage, tubes, rack end boots, steering gear, power steering fluid reservoir tank, hoses.

Heating/Air Conditioning

All A/C components, blower motors, electronic heater control unit.

Brakes

Master cylinder, brake booster, calipers, wheel cylinders, proportioning valve, hydraulic lines, ABS actuators, parking brake, control handle, cables, master cylinder reservoir, actuator, pedal.

High Tech Components

All computers, actuators and sensors used in the following electronically controlled units and/or systems: electronic modulated suspension system, progressive power steering system, electronic controlled transmission, antilock brake system, cruise control system, body and door control computer. All sensors, including hoses, pipes, nuts, clamps, wires, switches and sensors.

Emission Control

Electronic fuel injection system, distributor, ignition coil, igniter, ignition wire, fuel tank, fuel cap, hoses, pipes, air pump, air injection manifold, throttle positioner, modulator, catalytic converter, exhaust pipe (manifold to catalyst), EGR pipe, EGR valve, vacuum switching valve, all parts used in positive crank case ventilation system, air injection or air suction system, emission control sensor.

Electrical System

Power window motors and regulators, exterior mirror motors, electric door lock actuators, power seat motor and gears, sunroof motor, wiper motor, washer pumps, all manually operated switches, wiring harness, speedometer and cable, wiper arms, linkage and other parts used in the preceding components and/or systems including hoses, pipes, nuts, clamps, wires, switches and sensors.

Body Hardware

Door hinges (front/rear/hatch), inside door handles (front/rear/hatch), outside door handles (front/rear/hatch), hood and hatch supports, fuel door release cable, trunk release cable, child safety door lock mechanism.
